

Honorable Judge Robert D. Drain,

We, the undersigned, want you to know that we will be forever impacted by the decision you will be making regarding Delphi's request to reject its labor contracts. You should also be aware that we are only a small representation of those whose fates will be determined by the outcome of this case. It is estimated that for every one worker in the automotive industry, there are seven others in relative fields who are dependent upon the industry's health, not to mention the labor force in general. Please weigh your decision carefully.
